Newsletter of Orange County Chapter 69 of the
National Association of Watch and Clock Collectors

Meeting Minutes, February 2, 2018

MUSIC IN CLOCKS AND CLOCKS IN MUSIC

The meeting was called to order at 8:00 p.m. by President Paul Martyn after the mart ended. Last month's minutes were accepted.

Our March meeting will be a "Bazaar" with tables free with admission fee of \$4.00. Please see Paul if you want a table.

Beginner's corner was a discussion of types of lubricants, manufacturers, where to buy them, and which ones work best. This was given by Paul Martyn, Jerry Kleeb and Larry Squires. There are a variety of uses and types which can be adapted to working on clocks including using automotive type lubricants.

The main program tonight was given by Jerry Kleeb and he demonstrated how to repair quartz movements. He has been successful and showed us four different clocks he has repaired. It takes some knowledge and a lot of patience to repair this simple type of movement.

The raffle was held and two people claimed their prizes from last month also.

This Month

NAWCC CHAPTER 69 BAZAAR

In that our Chapter may not have a Mart this year, the decision was made to have a Watch/Clock Bazaar in lieu of our regular March 2nd (Friday) meeting.

Fifteen tables will be available for sellers. If you are interested in a table, please call Paul so that one can be reserved in your name. There is no charge for a table; buyers and sellers are only to be charged the regular \$4. meeting dues. If you are interested in a table, please contact Paul directly in advance of the meeting to see if any are still available.

Sellers are encouraged to arrive at 6:45PM. Buyers are invited to arrive anytime after 7:00PM. The Bazaar will close at 9:00 PM.

This event will be held at the Masonic Lodge at 11270 Acacia Parkway in Garden Grove.

I am looking forward to so seeing you all on March 2nd.

Paul Martyn

TIME TRIVIA

In the northern hemisphere, the spring, or vernal equinox happens around March 21, when the sun moves north across the celestial equator, and is often confused with the solstice, which is either of the two times a year when the sun is at its greatest distance from the celestial equator.

**DATED MEETING NOTICE
PLEASE DO NOT DELAY**

ORANGE COUNTY CHAPTER NO. 69
